# STUDENT PORTAL

MEET YOUR NEW BEST FRIEND.

The GradeCam Student Portal is a paperless assessment alternative that allows students to access assignments through their personal login, either synchronously or asynchronously.

- **Students** can access scores instantly, viewing both correct and incorrect responses.
- **Parents** can access the portal, bridging communication between home and school.
- **Teachers** can share assessments and data within a PLC or with administration.

Whether you are a 1:1 school or a BYOD district, GradeCam provides a solution to meet your teacher, school, and district needs.

"Just graded 1st period's finals right on the spot - kids saw their final exam score within 10 seconds -- GradeCam is so cool!"
-Gary Ledger, Math Teacher, Temple High School

POWER TO THE TEACHER
