

## How did Pulaski County High School move from 227<sup>th</sup> to 16<sup>th</sup>?

*GradeCam plays an essential role in providing meaningful data.*

Designated as a prestigious “Hub School” in Kentucky, Pulaski County High School in Somerset, KY has been using the data from GradeCam as an integral part of its turn-around from 227<sup>th</sup> to 16<sup>th</sup> top performing High School in Kentucky. GradeCam allows teachers to administer common, standards-aligned assessments and easily compare results between assignments, classes, or teachers. From a district level, data from the cloud-based GradeCam is available for administrators to analyze how entire grades or schools are performing by Kentucky Academic Standards.

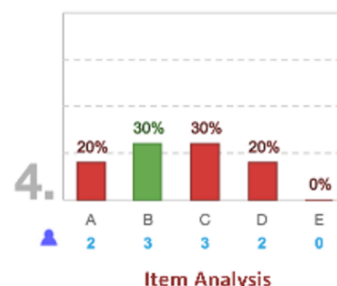

In ongoing Professional Learning Communities (PLCs), teachers in the English and Math departments use the color-coded GradeCam data to compare teaching strategies and make suggestions for the improvement of their classes. Individual test questions were analyzed as to their effectiveness as well as determining student strengths and areas of improvement.

*“GradeCam has helped teachers to quickly and easily identify our students’ strengths and areas of need on a given standard, thereby enabling us to provide more focused instruction.” – Julie Hoff, English teacher, Pulaski Co. H/S*

*“GradeCam is amazing! The easy-to-use program makes teaching more about the students. Less time is taken grading papers and analyzing data. Instead, we can focus on preparing exciting lessons for our students! I couldn’t imagine teaching without GradeCam!” – Michelle Copley, Math teacher, Pulaski Co. H/S*

	Questions									
Teacher	1	2	3	4	5	6	7	8	9	10
Fleck, G.	100%	80%	90%	100%	80%	90%	100%	100%	100%	80%
Frank, K.	100%	90%	90%	80%	80%	90%	70%	100%	70%	80%

Comparing Common Assessments

Pulaski County has been sharing their successful practices with neighboring counties in order to assist them as well in their quest for better teaching practices and more proficient students. By Kentucky Department of Education definition:

*“As a Hub School, each school will serve as a regional hub of learning for students and adults. The school will share their best or promising practices with schools in their area of the state to support improvement.”*

**GRADECAM**

GradeCam allows teachers to easily administer plain paper “bubble sheet” assessments using their own document camera, webcam, Chromebook, or mobile device (Apple or Android). Grades are automatically transferred into any electronic gradebook. A free version is available for teachers at [www.gradecam.com](http://www.gradecam.com). School and district licenses extend sharing capabilities to take GradeCam to the next level.

Proven Learning, the sole designated provider of GradeCam in your area, has been partnering with teachers with award winning products for over a decade and is proud to offer this service.
